Training

Data Analytics and Industry Tools **June 2025 - July 2025**

W3Grades.

- Conducted exploratory data analysis on accident datasets to identify severity drivers and support risk assessment.
- Transformed and analyzed multi-million records using SQL and ML techniques to extract actionable insights.
- Developed an interactive Power BI dashboard revealing regional risk patterns, improving prediction accuracy by 10%+.

Projects

AlertDrive.ai | *Python, OpenCV, Dlib, Scikit-learn, Computer Vision (EAR Algorithm)* **Aug 2025 - Sep 2025**

- Designed a real-time driver drowsiness detection system using OpenCV with facial landmark tracking to monitor eye closure patterns.
- Applied Eye Aspect Ratio (EAR) algorithm for fatigue detection and real-time alert generation.
- Achieved 95% detection accuracy, reducing false positives through threshold optimization and temporal analysis.
- GitHub Link: **https://github.com/mayankpandey09/AlertDrive.ai**

Fraud Intelligence System | *Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn* **Feb 2025 - Mar 2025**

- Engineered a machine learning-based fraud detection system analyzing **2.8M transactions** using Pandas, Scikit-learn, and feature engineering to identify anomalous patterns.
- Trained and evaluated classification models using predictive modeling techniques, achieving 85% detection accuracy, improving fraud identification and reducing risk exposure.
- Designed interactive data visualizations using Matplotlib and Seaborn to deliver actionable risk insights for decision-making.
- Live Link: **https://tinyurl.com/fraud-intelligence**

HireSense AI | *Python, Streamlit, NLP (spaCy), Sentence Transformers (BERT), Plotly* **Feb 2025 - Mar 2025**

- Architected an NLP-driven resume screening system using BERT and sentence transformers for semantic similarity matching between candidates profiles and job descriptions.
- Implemented ATS scoring, keyword gap analysis, and recommendation engine to enhance resume-job alignment.
- Optimized matching performance, reducing manual screening effort and enabling automated, data-driven hiring insights.
- Live Link: **https://tinyurl.com/hiresense-ai**

Certifications

Data Science Professional **Sep 2025**

Oracle — Certificate Link

Generative AI Professional **Sep 2025**

Oracle — Certificate Link

Machine Learning Essentials for Business and Technical Decision Makers **Jun 2025**

AWS — Certificate Link

Privacy and Security in Online Social Media **May 2025**

NPTEL (Elite Silver) — Certificate Link

Technical Skills

Languages: Python, C, C++, Java, SQL, HTML, CSS, JavaScript

Libraries & Frameworks: Pandas, NumPy, Matplotlib, Scikit-learn, Seaborn, Plotly, TensorFlow

Tools: Git, GitHub, Jupyter Notebook, PowerBi, Tableau, Excel, Hadoop

Soft Skills: Leadership, Problem Solving, Time Management, Adaptability

Education

Lovely Professional University Punjab **2023 – Present**

Computer Science and Engineering — CGPA: 8.10 *Jalandhar, Punjab*

Sainik School Ambikapur **2021 – 2022**

12th with Science — Percentage: 82% *Ambikapur, Chhattisgarh*
